RETAIN SAFETY INFORMATION

This manual should be read and understood by all personnel who operate the Cable Dispenser. Failure to understand how to safely operate this unit could result in injury or property damage. This unit should only be operated by qualified personnel.

IMPORTANT SAFETY INFORMATION

Follow ALL safety information provided by the manufacturer.

▲ CAUTION

Do NOT stand on the Cable Dispenser. It may become unstable and cause injury or damage to unit.

▲ CAUTION

Do NOT overload Cable Dispenser. Maximum dispensing capacity is 50 lbs. per turntable. (100 lbs. total).

▲ CAUTION

ONLY transport cable reels to be dispensed on the 509DMC Cable Dispenser. Transporting other loads may damage unit.

▲ CAUTION

Stay CLEAR of Cable Dispenser while in use.

FEATURES

- Sturdy steel construction for rugged use.
- Convenient T-handle and durable wheels for easy mobility.
- T-handle can be stowed on the carriage to save space during storage.
- Fits through a standard 32" doorway.
- Includes an adjustable spring to set the drag required and to prevent over-feeding.

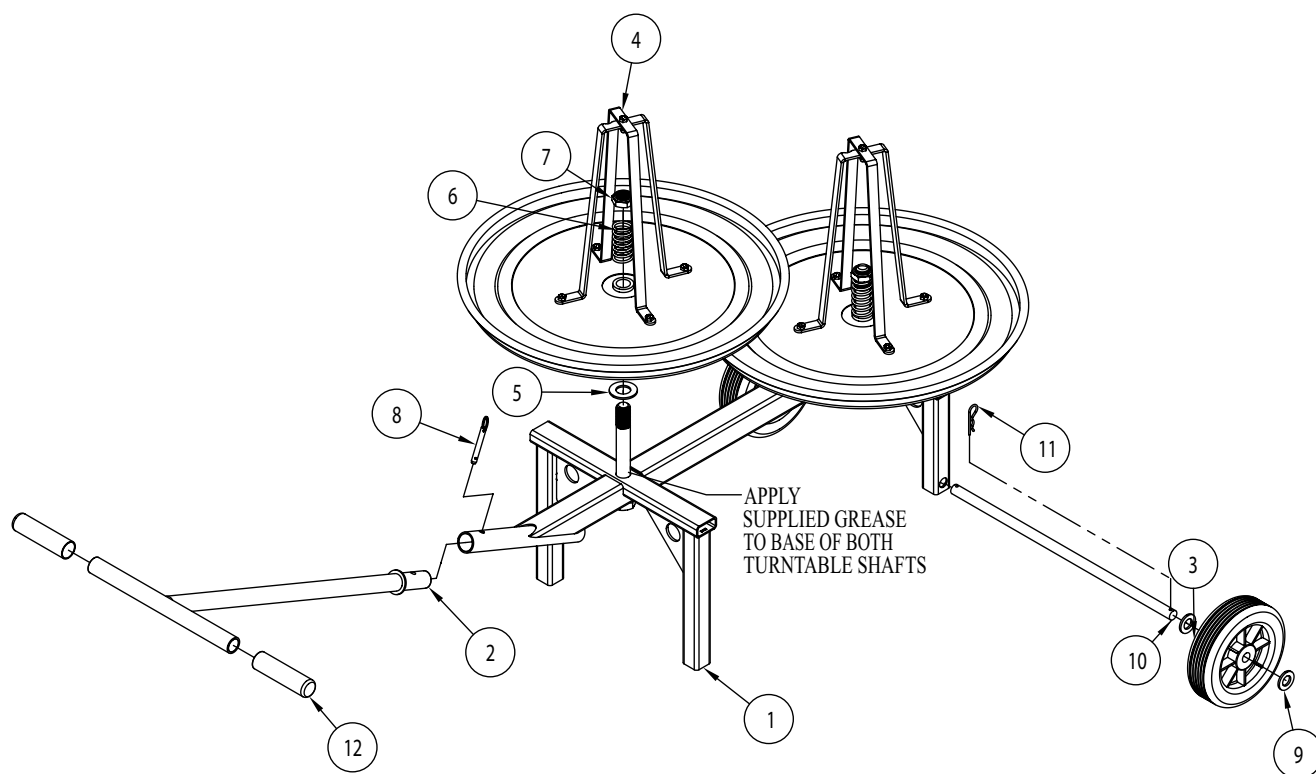

OPERATING INSTRUCTIONS

1. Un-pin the T-handle from its stowed position on the carriage (see Figure 3) and insert it into the T-handle receiver on the end of the cart. Re-pin the handle (see Figure 3A).
 2. Place the coil of wire or cable onto the turntable with the wire or cable unwinding from the outside of the dispenser. Remove all ties or straps from the coil. (For Romex[®]*, remove from box and place onto turntable).
 3. Set the desired drag on each turntable by adjusting the hex nut at the top of the spring.
 4. Position the cart so that the wire or cable is dispensed from the side of the cart.
- NOTE: If you are only dispensing one coil of wire or cable, you can use either turntable and it can be loaded for use in either direction.
