| 2-1100         | 1-1/2" - 2" EMT roller support | 40 lbs. | UPC 811993020421 |
| 8-0501         | Metal storage box              | 36 lbs. | UPC 811993020438 |

### 700I-DL 1 1/2" to 2" IMC Shoe Group — UPC 811993025136

For bending 1 1/2" and 2" IMC. Includes the following four items.

| Catalog Number | Description                           | Weight  |                  |
|----------------|---------------------------------------|---------|------------------|
| 2-1801DL       | 1-1/2" IMC bending shoe               | 22 lbs. | UPC 811993025204 |
| 2-1901DL       | 2" IMC bending shoe                   | 29 lbs. | UPC 811993025211 |
| 2-1200         | 1-1/2" and 2" IMC roller support unit | 40 lbs. | UPC 811993020476 |
| 8-0501         | Metal storage box                     | 36 lbs. | UPC 811993020438 |

### 700P-DL 1/2" - 2" 40mil PVC Coated Rigid Shoe Group — UPC 811993025143

For bending 1/2" thru 2" 40 mil PVC coated RIGID. Includes the following five items.

| Catalog Number | Description                                   | Weight  |                  |
|----------------|-----------------------------------------------|---------|------------------|
| 2-2001DL       | 1/2"- 1-1/4" PVC coated Rigid bending shoe    | 23 lbs. | UPC 811993025228 |
| 2-1004         | 1/2"- 1-1/4" PVC coated Rigid roller support  | 8 lbs.  | UPC 811993020513 |
| 2-2101DL       | 1-1/2" and 2" PVC coated Rigid bending shoe   | 37 lbs. | UPC 811993025235 |
| 2-1005         | 1-1/2" and 2" PVC coated Rigid roller support | 6 lbs.  | UPC 811993020537 |
| 8-0501         | Metal storage box                             | 36 lbs. | UPC 811993020438 |

**BENDING**

## 77HRB Hi-Rise Base

- Increases productivity and reduces back strain by raising the bender to a more ergonomic height
- Will fit Current Tools Model 77 or Greenlee® 555®C Bender\*
- Stable, heavy-duty design
- Can accommodate multi-shoe or single shoe groups
- Two rigid and two locking swivel casters for easy mobility
- Raised design allows for larger offsets
- Convenient tray for storage
- Powder coated finish

## 77HRB Hi-Rise Base

**Load and unload conduit at a  
safe, ergonomic height**

**All operations are located at  
a comfortable position to  
minimize worker fatigue.**

**BENDING**

## 747 Omni™ Bender

- Only two shoes needed to bend 1/2" to 2" Rigid, EMT and IMC conduit. Optional shoe group bends 1/2" to 2" 40 mil PVC coated Rigid conduit
- Proven electrical control system
- All major electrical components are interchangeable with Model #77 Series Electric Bender
- Adjustable bend angle limit switch for accurate repeat bends
- Tilts for horizontal bending in a tabletop position
- Quick squeeze adjustment for conduit support rollers
- Fork pockets for easy lifting
- Lockable storage box for accessories
- Flat free wheels
- Made in the USA

**To bend 1/2" thru 2"  
EMT, IMC, Rigid, Rigid  
Aluminum and schedule 40  
steel pipe. Can also bend  
1/2" thru 2" 40 mil PVC  
coated Rigid conduit with  
optional shoe group.**

## 254 Hydraulic Bender and packages

### for 2½" to 4" Rigid/EMT/IMC

- Bends 2 1/2" to 4" Rigid, EMT and IMC conduit
- Makes 90° bends with one extension of the hydraulic cylinder
- Can be set up and used on the floor, with Model #281 Bending Table or with Model #252 Mobile Bending Station
- Quick setup
- All major components will fit Greenlee® Model #881CT CamTrack® Bender\*
- Made in the USA

For pump information  
see page 37

## 252 Mobile Bending Station for use with Model #254 Hydraulic Bender

- Mobile Bending Station to store, move and bend with the Model #254 Hydraulic Bender
- Saves time — move bender around jobsite without disassembly
- Complete bender will store on the frame
- Convenient forklift pockets
- Designed to fit through standard 36" doorway
- Heavy duty wheels — 2 rigid, 2 swivel locking
- Greenlee® Model #881 or 881 CamTrack®\*  
Bender will fit on the Mobile Bending Station
- Made in the USA

### SPECIFICATIONS

Weight — 460 lbs.  
Length — 85"  
Width — 30½"  
Height — 48"

# BENDING

## 281 Bending Table

- Keeps bender off of the floor and at a comfortable working height
- Fast, easy set-up
- Reduces operator fatigue
- For use with Current Tools Model #254 Hydraulic Bender
- Capacity up to 4" conduit
- Made in the USA

**BENDING**

## 282 Transfer Cart for 2½" to 4" Hydraulic Bender Shoes, Follow Bars and Saddles

- Easy mobility of 2½" thru 4" shoe groups — shoes, follow bars, and saddles
- Help reduce back strain keeping the shoe group at a more ergonomic height
- Built in rollers allow the shoe groups to be moved quickly onto and off of the bender
- Reduced lifting of heavy components lessens fatigue and chance of injury
- Ability to adjust cart height with leg set substitution
- Component locations clearly marked for easy identification
- Extra storage tray on the bottom of the cart
- For use with model #254 hydraulic bender shoe group components (shoe, follow bar, saddle). Greenlee® Model #881 CamTrack® shoe components will fit as well

TRANSFER CART LOADED  
WITH #254 HYDRAULIC BENDER  
SHOE GROUPS

## **11 Lightweight High-Speed Cable Puller – 1,000 lb. Capacity**

- Designed for one person set-up and operation
- 1000 lb. max capacity with 600 lb. continuous pulling force
- Accepts most 18v cordless drills
- Telescoping boom easily extends up to 42" in length
- Quickly unload poly line with removable capstan plate
- For use with any size conduit from ½" to 4"
- Lightweight
- Adapter coupling for adding stabilizing leg
- Complete unit with no assembly required
- Maintenance free gearbox

## CABLE PULLING

### 33BAT Battery Powered High Speed Cable Puller 3,000 lb. Capacity

- Comes complete with two 18V batteries and charger
- Mobile cart for easy mobility around jobsite
- Folds for compact transport and storage
- 8' reach when fully extended
- Full set of quick release conduit couplings included
- Integral heavy duty 18 volt, 2-speed motor
- Permanently lubricated vent free gearbox
- Integral foot switch
- Complete system – no extra parts to purchase
- Flat free wheels
- Extra battery storage for quick power change

**Comes complete with two 18V batteries and charger.**

**See pages 80 & 81  
for pulling rope.**

## CABLE PULLING

### 88 Cable Puller — 8,000 lb. Capacity

- Heavy duty unitized construction
- Built in force gauge
- No tools required for set-up
- Right angle roller for operator safety
- Circuit breaker to protect puller motor
- Tapered capstan for rope alignment and to help avoid rope overlap
- 8,000 lb. pulling capacity
- Reliable jobsite-proven drive train
- Made in the USA

**maximum pulling force:** 8,000 lbs.

**speeds (approx.):** no load — 16 ft./min.  
4,000 lbs. — 9 ft./min.  
6,000 lbs. — 7 ft./min.

**motor:** 120 volt AC, 60 hertz, 15 amps

**See pages 80 & 81  
for pulling rope.**

## CABLE PULLING

### 100 Two Speed Cable Puller with Carriage – featuring ROTABOOM™ 10,000 lb. Capacity

- 10,000lb. pulling capacity
- Built-in force gauge with digital read out
- One person set up
- Four wheel carriage for stability and ease of transport
- Patented 45° horizontal pivot (Rotaboom™) allows for use of puller in tight spaces
- Two speeds allow for fast pulling on low force pulls and increased torque for heavier pulls
- Boom height adjustment handle allows for easy vertical positioning of boom sections with little effort
- Snap-in couplings for quick and easy set-up
- Fits through 32" doorway
- Flat-free urethane wheels

with patented  
**ROTABOOM™**  
Patent # 9,899,811

maximum pulling force — 10,000 lbs.

## CABLE PULLING

### 99 Cable Feeder

- Hinged upper drive to allow for easy side loading
- High grip tires can accommodate no lube or regular cable
- Dual drive motors for maximum grip on cables
- Cable separator guides cables to ensure positive grip on tires
- Heavy duty transport caster with quick release mechanism
- Variable speed control
- May be operated with remote pendant or optional foot switch
- Self-lubricating drive chains reduce maintenance
- Flat-free transport wheels
- Made in the USA

*Can be used  
with SIMpull®\*\*  
and other  
cables that  
do not require  
lubrication*

## Model 99 Cable Feeder Features and Specifications

*Hinged for  
easy loading  
from side  
without  
disassembly*

### FEATURES

- Hinged upper drive with gas spring assist for ease of cable loading from side
- Each tire independently driven for maximum pulling power
- Variable speed control
- Low voltage hand control pendant with 8' cable
- Ratcheting tension adjustment provides tension on cable from 1/4" to 3 1/2" diameter
- Removable cable separator
- Self-lubricating drive chains reduce maintenance

### SPECIFICATIONS

- Weight: 345 lbs.
- Dimensions: 26"W X 42"L X 43"H
- Power requirements: 115 VAC, 15 amps, 60 Hz
- Feeding speed: 0 ft./min to 36 ft./min.
- Cable capacity:  
Cable size — .25" to 3.5" dia. max.  
Total width of all cables — 6" max.
- Maximum pulling force:  
Single cable — Approximately 250 lbs.  
All cables — Approximately 1,000 lbs.
- Maximum reel capacity — 25,000 lbs.

## CABLE PULLING

### Double Braided Composite Rope

- Composite rope gives strength with low stretch
- Pulling eye on each end
- Double braided jacket and inner core
- Made in the USA

**Larger sizes and lengths available upon request**

***Please contact us with your special order needs.***

## **EZ Rope™**

### **Low Friction – Lightweight Pulling Rope**

- Significant reduction of friction compared to standard pulling rope
- Breaking strength — 32,000 lbs.  
Pound for pound stronger than steel
- Available in 3 lengths: 300' – 600' – 1200'
- Extremely low stretch
- Weighs much less than standard pulling rope
- Superior pulling rope made from ultra-high molecular weight fibers
- UV resistant
- Factory installed eyes on each end

***Only one rope needed for all your cable pulls up to 10,000 lbs.***

## CABLE PULLING

### Cable Pulling Package Accessories

#### Rope Stands

- For organizing and rewinding rope
- Strong welded frame with washer and spring clip to contain rope reel

| Catalog Number | Description                                                      | Weight  |                  |
|----------------|------------------------------------------------------------------|---------|------------------|
| 8051           | Pulling Rope Stand for 3/4" dia. x 300' or 7/8" dia. x 300' Rope | 15 lbs. | UPC 811993022012 |
| 8052           | Pulling Rope Stand for 3/4" dia. x 600' or 7/8" dia. x 600' Rope | 25 lbs. | UPC 811993022029 |

### Cable Pulling Extras

#### Polyester Measuring / Pulling Tape

- Large printed footage markings
- Use in many applications with various tensile strengths
- 3000' spools

| Catalog Number | Description                                                          | Weight  |                  |
|----------------|----------------------------------------------------------------------|---------|------------------|
| ST1250         | Poly Measuring / Pull Tape - 1,250 lb. Breaking Strength - 1/2" wide | 26 lbs. | UPC 811993022326 |
| ST1800         | Poly Measuring / Pull Tape - 1,800 lb. Breaking Strength - 5/8" wide | 33 lbs. | UPC 811993022333 |
| ST2500         | Poly Measuring / Pull Tape - 2,500 lb. Breaking Strength - 3/4" wide | 45 lbs. | UPC 811993022340 |

### Conduit Measuring Tape

- Easy to read measurements from 0' to 3000'
- Use to fish and measure conduit in one step
- Dispenser available to pay out and cut tape

| Catalog Number | Description                            | Weight |                  |
|----------------|----------------------------------------|--------|------------------|
| CMT30          | Conduit Measuring Tape - 3/16" x 3000' | 4 lbs. | UPC 811993022357 |
| CMT30D         | Dispenser for Conduit Measuring Tape   | 2 lbs. | UPC 811993022364 |

## Spiral Wrap Poly Line ( Rat Line )

- Dispenses directly from the container
- Virtually tangle free when dispensing
- Pre-punched hole in lid ready for use
- Reusable plastic dispenser
- For pulling rope through conduit

| Catalog Number | Description                   | Weight  |                  |
|----------------|-------------------------------|---------|------------------|
| SPL65          | Spiral Wrap Poly Line - 6500' | 11 lbs. | UPC 811993022371 |

## Conduit Pistons ( Rats )

- Flexible foam body provides air tight seal
- For use with blower or vacuum fishing systems
- Steel center rod for strength with loops on both sides
- Sizes available for up to 6" conduit

| Catalog Number | Description                       | Weight   |                  |
|----------------|-----------------------------------|----------|------------------|

## Line Swivels – 00505 Series

- Current Tools line swivels are constructed with a thrust bearing for tensile load and a radial bearing for bending load. They combine a high safe working load with a compact design.
- All sizes incorporate an oil seal and are manufactured from high strength stainless steel.
- Sizes 00505-020 and larger are supplied with a grease point for lubrication.
- Sizes 00505-025 and larger are supplied with hexagon Clevis Pins.

### **! CAUTION**

Line swivels are not designed to run around sheaves.

## Wire Grip Swivels – 00501 Series

These swivels may be used in conjunction with any non-rotary head wire mesh grip. They will allow the wire being installed to "unwind" as it is being pulled in, but like the Rotary Heads, these swivels will not rotate under load.

| Catalog Number | Min. Breaking Strength | A      | B     | C      | Weight   | UPC          |

## PULLING ACCESSORIES

### Breakaway Swivel – 00550 Series

- The purpose of this product is to protect the cable being installed from overload as well as providing the function of a regular Line Swivel. Typically, they are used during the installation of Fiber Optic cable where the swivel can be pre-set to breakaway at a pre-determined load, thus protecting the fibers or the conduit.
- Breakaway pin kits are ordered separately from breakaway swivels.
- Breakaway pin load ratings are within +/-10%.
- The Swivel is constructed of stainless steel and the breakaway pins are color coded for easy identification.

*Note: Breakaway pin kits not included with breakaway swivels and must be ordered from chart below.*

| Catalog Number | A      | B      | C      | D       | Use Breakaway Pin Kits in: | Weight    |                  |

## Can-Link Connector — 00520 Series

- The 00520 Connector is used to connect two items with lugs or wire loop fittings. A common use is to connect a wire mesh grip to the pulling wire. The connectors are manufactured from high strength Stainless Steel with hardened Clevis Pins. The two smaller sizes have slotted Clevis Pins while the larger ones have hexagon Clevis Pins.

# PULLING ACCESSORIES

## Pulling Harnesses

- Designed to pull in 2" and larger conduit
- Harness legs are 1/4" galvanized aircraft cable
- Staggered grips on each double leg harness to avoid interference with each other
- Harnesses available in long and short lengths
- Grips have 5/8" diameter opening and are supplied with 2 jam screws
- See maximum capacities listing below
- Made in the USA

## Pulling Grips

**Current Tools** cable grips are hand-woven by experienced trades people and this guarantees a consistent level of high quality. **Current Tools** grips are reverse woven, creating a loop at the end of the grip instead of being soldered or crimped together.

The looped pulling head is actually a separate wire rope eye which is placed inside the swage sleeve along with the wire mesh strands. The swage sleeve is then crimped forming an extremely effective anchor point for both the looped head and the wire mesh. Testing proves this is never the weakest link of the product. The flexible eye allows cable to be pulled more easily through smaller conduit.

The **Current Tools** cable grips enclose the cable firmly over the entire length of the mesh. They are made of high tensile steel strands. Depending on the type of grip, the strand comprises 7, 12 or 19 wires. By selecting the most suitable strand, the tension distribution characteristics can be adjusted to suit the requirements.

All **Current Tools** grips meet the highest standards in terms of material and workmanship and we are pleased to offer a wide range of grips with different designs and eye arrangements for onsite, underground or overhead installations.

In addition to the grips listed in this catalog, **Current Tools** can also supply special products for particular fields of application. Information on these will be supplied upon request.

Some of the grips offered in this catalog have Rotating Heads which allow the grip to rotate while not under load.

**Current Tools** also offers the 00501 Series swivel, designed specifically for use with flexible eye grips, it is easily interchangeable but it will also not rotate under load.

All capacities indicated are Approximate Breaking Strength. Each user must decide what safety factor they require for each specific operation before selecting which grip to use. Due to metal fatigue and possible in-use damage, quoted values only apply to new grips.

Please refer to the following pages for information on **Current Tools** pulling grips. Line Swivels, Breakaway Swivels and Connectors suitable for use with the grips may also be found in this catalog.

# PULLING ACCESSORIES

## Pulling Grips — 00682 Series

### TRIPLE WEAVE – ROTARY HEAD – SHOULDERS

These grips offer a Stainless Steel Rotary Head with Shoulders and Triple Weave galvanized wire construction. The shoulders help to protect the leading edge of the cable and this type should be used for heavy duty applications.

*Note: The Rotating Head does not replace the use of a Line Swivel, Series 00505. There are no bearings to allow rotation under load and severe damage may occur to the cable being installed if this product is used without the correct swivel.*

| Catalog Number | Size Range     | Mesh Length | A      | B      | C      | D      | Approx. Breaking Strength | Weight   |                  |

## PULLING ACCESSORIES

### Pulling Grips – 00695 Series

#### DUAL WIRE – DOUBLE WEAVE – HIGH STRENGTH – SHOULDERS

These extra high strength grips feature a dual wire, double woven construction. This type of grip should be used for heavy duty applications such as overhead transmission wire. The grips are particularly suited to bare conductor and synthetic rope applications.

| Catalog Number | Conductor Size Range | Rope Size Range | Mesh Length | Head Length | Approx. Breaking Strength | Weight    |                  |
|----------------|----------------------|-----------------|-------------|-------------|---------------------------|-----------|------------------|

### Lube Spreader – 00510 Series

This product is designed to spread the lubricant around the walls and along the length of the conduit, while also acting as a connector.

The body is constructed out of Stainless Steel and the polyurethane disc has angular grooves which allow better distribution of lubricant.

**Table A: Spreader Disc**

| Spreader Disc Catalog Number | Conduit Size | Disc Diameter | Connector Body | Weight    |                  |

#### How to Order:

- Select disc from table (A) to fit the internal diameter of conduit to be lubricated.
- Select connector assembly from table (B) to match selected disc from table (A).

**Table B: Connector Body**

| Connector Catalog Number | *Safe Working Load | Body Diameter | Overall Length | Clevis Pin | Weight    |                  |
|--------------------------|--------------------|---------------|----------------|------------|-----------|------------------|

## Conduit Checker — 08500 Series

Following initial installation of the conduit it is often found that debris or partial collapse of the conduit will impede installation of the cable.

These products are designed to ensure the conduit is clear before installing the cable.

The discs are manufactured from high density polyurethane giving them the toughness to clear the conduit without scraping or scratching the interior walls. The discs are spaced with gaps to allow passage through tight bends. The wire rope running through the mandrel is high quality, galvanized wire.

| Catalog Number | Conduit Size | Disc Diameter | *Safe Working Load | Weight    |                  |
|----------------|--------------|---------------|--------------------|-----------|------------------|

## STORAGE

### Storage Boxes

- Model 104 provides secure storage for bending tables
- Model 8-0501 provides secure storage for electric bender shoe groups
- Secure storage for job site tools
- Heavy duty hinges for durability
- Side handles for easy lifting
- Heavy duty - 16 gauge construction
- Made in the USA

## General Purpose Poly Rope

- High visibility yellow
- Great for roping off areas within construction sites
- Resistant to weather, rot and mildew
- For general purpose use
- **NOT FOR CABLE PULLING.**

*See pages 80 & 81  
for pulling rope.*

# Current Tools, Inc. Limited Warranty

Current Tools, Inc. extends the following Limited Warranty to the original owner:

If the Current Tools, Inc. equipment shall prove to be defective in materials or workmanship during the **Limited Warranty period of two (2) years after original delivery**, Current Tools, Inc. at its option will repair or replace the defective equipment.

The warranty on any replacement equipment supplied hereunder will be limited to the unexpired term of the original warranty. Failures due to misuse and abuse are not covered by this warranty. No other warranty expressed or implied, applies, including merchantability or fitness for a particular purpose. No employee, agent, dealer, or other person is authorized to alter this or make any other warranty on behalf of Current Tools, Inc.

To obtain the benefit of this warranty deliver the complete product prepaid to Current Tools, Inc. or any Current Tools, Inc. authorized repair center.
