For 2 ½" to 4" Hydraulic Bender Shoes, Follow Bars and Saddles

- Easy mobility of **2½" thru 4" shoe groups** — shoes, follow bars, and saddles
- Help **reduce back strain** keeping the shoe group at a more **ergonomic height**
- **Built in** rollers allow the shoe groups to be moved **quickly** onto and off of the bender
- **Reduced lifting** of heavy components **lessens fatigue** and **chance of injury**
- Ability to **adjust cart height** with leg set substitution
- Component locations clearly marked for **easy identification**
- **Extra storage** tray on the bottom of the cart
- For use with model **#254 hydraulic bender** shoe group components (shoe, follow bar, saddle). **Greenlee® Model #881 CamTrack®** shoe components will fit as well
